Dedicated to the production of functional, organic and bioavailable foods that are suitable for vegans and free from allergens.

We are IFS Progress Food certified and have a portfolio of more than 150 ingredients, most of which are certified organic and all of which are clean label.

We purchase products at source, which makes us more reliable (traceability) and competitive.

Our R&D team has developed more than 50 products with our own formulas.

MISSION AND VISION

Mindful nutrition has a huge impact on our health, our quality of life, and also on how we treat other animals and the planet.

TENTORIUM ENERGY wants to contribute to improving people's health and performance, and to preserving the planet, by offering non-animal-based products that are nutrient-dense, bioavailable, free of contaminants, and packaged in sustainable packaging.

OUR FACILITIES

Uldecona & Sant Cugat del Vallès

In Uldecona, we have 1,200 m² where we receive raw materials, produce, package and ship our products.

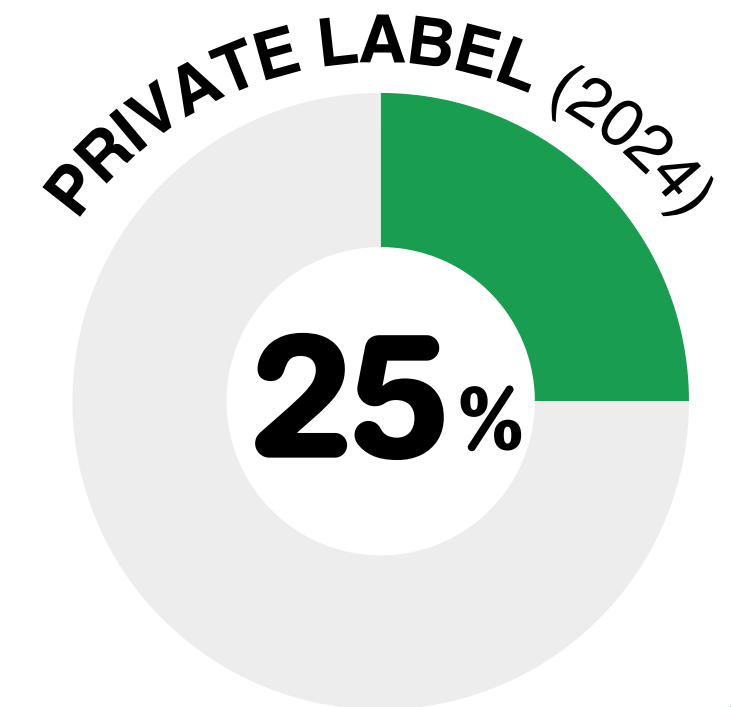

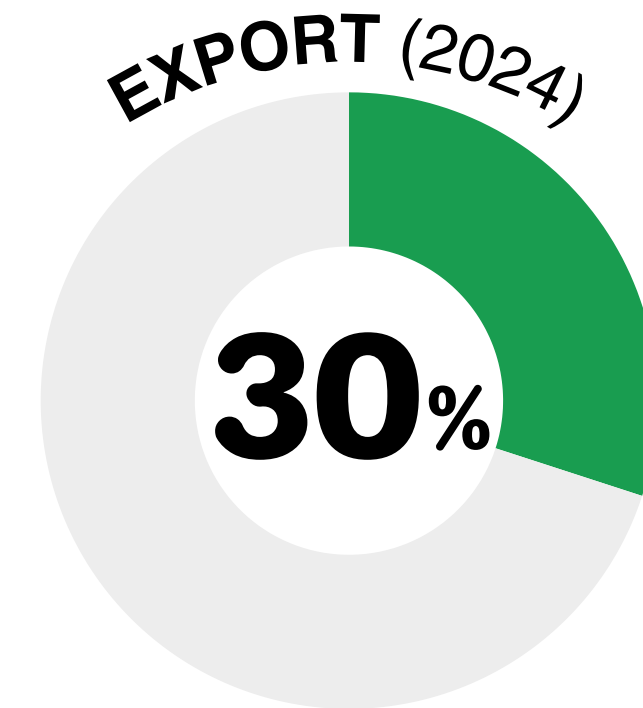

We are **IFS Progress Food certified**, which guarantees safety and quality in our processes.

In Sant Cugat del Vallès (Barcelona), we test new ingredients, create formulations and develop content for social media.
